

Kiran B

Nationality: Indian **Date of birth:** 05/05/1995 **Place of birth:** Bangalore, India

 **Phone number:** (+91) 9741621201  **Email address:** kiranb2040@gmail.com

 **Website:** www.kirandev.in

 **Home:** #2705, 2nd floor, 6th Main, Kumaraswamy layout, Bangalore, 560078 Bangalore (India)

WORK EXPERIENCE

 **Lowes India** – Bangalore, India

City: Bangalore | Country: India

Software Engineer

[17/05/2021 – 31/07/2023]

- 1. Developed **user-friendly web applications** leveraging **React.js, Redux, and related technologies**.
- 2. Wrote **clean, maintainable, and testable code** following modern JavaScript and React best practices.
- 3. Collaborated closely with **designers, back-end engineers, and product managers** to deliver high-quality features.
- 4. **Debugged, troubleshooted, and resolved production issues**, ensuring application stability and seamless user experience.
- 5. Actively participated in **code reviews, design discussions, and peer feedback sessions** to uphold coding standards.
- 6. Researched and evaluated **emerging web technologies, frameworks, and trends** for potential adoption.
- 7. Built **reusable components and libraries**, improving development efficiency across projects.
- 8. Optimized **application performance** by profiling, identifying, and resolving bottlenecks.
- 9. Contributed to **Agile processes** including daily stand-ups, sprint planning, and retrospectives.
- 10. **Mentored junior developers**, providing technical guidance, knowledge sharing, and leadership.

Senior Software Engineer

[01/08/2023 – Current]

- 1. Developed and maintained scalable **micro-frontend applications** to enhance post-purchase user experience.
- 2. Led the design and implementation of **cutting-edge front-end solutions** using React.js and Redux, ensuring high performance and maintainability.
- 3. Collaborated on CI/CD pipelines with **Spinnaker and Jenkins**, improving deployment reliability and reducing release cycles.
- 4. Worked on **cloud-native solutions** leveraging **Google Cloud Platform (GCP)**, Docker, and Kubernetes for scalable and resilient applications.
- 5. Conducted **code reviews** to ensure adherence to best practices and maintain high code quality across the team.
- 6. **Mentored junior engineers**, providing technical guidance and fostering a culture of learning and collaboration.
- 7. Acted as a **team lead**, coordinating tasks, ensuring delivery timelines, and aligning engineering efforts with business goals.

 **Vue Data Technologies** – Bangalore, India

City: Bangalore | Country: India

Software engineer

[04/02/2021 – 17/05/2021]

- 1. **Developed intuitive and user-friendly web applications** using ReactJS and related front-end technologies.
- 2. **Authored clean, maintainable, and testable code**, adhering to modern JavaScript and React best practices.
- 3. **Partnered with cross-functional teams**—designers, back-end engineers, and product managers—to deliver high-quality, customer-focused products.
- 4. **Diagnosed, debugged, and resolved issues** in existing codebases, ensuring smooth performance and reliability in live applications.

 **Digital FinTech Solutions** – Bangalore, India

City: Bangalore | Country: India

Software Engineer

[04/10/2018 – 02/02/2021]

1. **Developed user-friendly web applications** leveraging ReactJS and modern front-end technologies.
2. **Wrote clean, maintainable, and testable code** following JavaScript and React best practices.
3. **Collaborated with cross-functional teams**, including designers, back-end developers, and product managers, to deliver high-quality features.
4. **Debugged and resolved issues** in existing codebases and ensured smooth functioning of live applications.
5. **Researched and evaluated emerging web technologies**, frameworks, and trends for potential adoption.
6. **Built reusable components and libraries**, accelerating development efficiency across projects.
7. **Optimized web application performance** by profiling and addressing performance bottlenecks.
8. **Developed 10+ reusable custom charts for a FinTech project** using D3.js, improving data visualization and user experience.

EDUCATION AND TRAINING

Bachelor of Engineer (Computer Science and Engineering)

K.S.School of Engineering and Management [04/08/2013 – 30/07/2018]

City: Bangalore | Country: India

Front end development Internship

Gapoon [04/08/2018 – 01/10/2018]

Complete React Developer

Udemy [01/05/2020]

LANGUAGE SKILLS

Mother tongue(s): Kannada

Other language(s): English

SKILLS

React JS, React Route, React Hooks, React Dom / Redux, Redux Saga, Asynchronous Redux / D3.js / ES6+ Javascript / Responsive development / styled components / HTML5, CSS3, JavaScript ES6/ES7 / node js / express js / Devops: Docker, Jenkins / GCP - Google Cloud Platform / google adk / python
